KEY FEATURES OF THE SUB-FUND

WHAT ARE YOU INVESTING IN?

- You are investing in an ILP sub-fund that feeds 100% into the Underlying Fund, a sub-fund of abrdn SICAV I which is an open-ended investment company with a legal status of a société d'investissement à capital variable (a "SICAV") incorporated in Luxembourg and qualifying as a UCITS the law of the Grand Duchy of Luxembourg concerning undertakings for collective investment dated 17 December 2010.

Refer to Page 24 of the Underlying Fund's Prospectus for further information on features of the sub-fund.

Investment Strategy

- The Underlying Fund's investment objective is long term total return to be achieved by investing at least 90% of its assets in equities and equity related securities of companies listed, incorporated or domiciled in China, or companies that derive a significant proportion of their revenues or profits from Chinese operations or have a significant proportion of their assets there.

Refer to Page 24 and 25 of the Underlying Fund's Prospectus for further information on

¹ For ILP sub-fund that feed 100% into an underlying CIS fund, some of the information provided below could be similar to the underlying CIS fund.

² In order for units in the ILP sub-fund to be classified as Excluded Investment Products, the investment objectives and investment focus of the ILP sub-fund, and investment approach of the manager have to be stated in the product summary:

(a) to invest only in deposits or other Excluded Investment Products; and

(b) not to engage in securities lending or repurchase transactions for the ILP sub-fund.

The definition of "Excluded Investment Product" can be found in Annex 1 to the Notice on Recommendations on Investment Products [Notice No. FAA-N16] at <https://www.mas.gov.sg/regulation/notices/notice-faa-n16>.

* 1 January 2004 is the launch date of the ILP sub-fund. Previously known as 27 April 1992, which was the Underlying Fund's launch date.

[^] The denomination of the Aberdeen Standard SICAV I was changed from "Aberdeen Standard SICAV I" into "abrdn SICAV I" on 5 June 2023.

<ul style="list-style-type: none"> • The Underlying Fund may invest up to 100% of its net assets in Mainland China equity and equity-related securities through the Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programme or by any other available means, a 30% limit applies to QFI regime. • The Underlying Fund aims to outperform the MSCI China All Shares Index (USD) benchmark before charges. The benchmark is also used as a reference point for portfolio construction and as a basis for setting risk constraints, but does not incorporate any sustainable criteria. • In order to achieve its objective, the Underlying Fund will take positions whose weightings diverge from the benchmark and may invest in securities which are not included in the benchmark. The investments of the Underlying Fund may deviate significantly from the components of and their respective weightings in the benchmark. Due to the active and sustainable nature of the management process, the Underlying Fund's performance profile may deviate significantly from that of the benchmark. • The Underlying Fund promotes environmental and social characteristics but does not have a sustainable investment objective. • Investment in all equity and equity-related securities will follow abrdn's "All China Sustainable Equity Investment Approach". Through the application of this approach the Underlying Fund has an expected minimum of 35% in Sustainable Investments. Furthermore, the Underlying Fund targets an ESG rating that is equal to or better, and a meaningfully lower carbon intensity, than the benchmark. • This approach utilises the Manager's equity investment process, which enables portfolio managers to qualitatively identify and focus investment in sustainable leaders and improvers. • To complement this research, the Manager's ESG House Score is used to quantitatively identify and exclude those companies exposed to the highest ESG risks. Additionally, the Manager apply a set of company exclusions which are related to the UN Global Compact, Norges Bank Investment Management (NBIM), Weapons, Tobacco, Gambling, Thermal Coal, Oil & Gas and Electricity Generation. More detail on this overall process is captured within the Manager's Sustainable Equity Investment Approach, which is published at www.abrdn.com under "Fund Centre". • Engagement with external company management teams is used to evaluate the ownership structures, governance and management quality of those companies in order to inform portfolio construction. The Underlying Fund Investment Approach reduces the benchmark investable universe by a minimum of 20%. Financial derivative instruments, money-market instruments and cash may not adhere to this approach. • The Underlying Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks. The use of derivatives for hedging and/or investment purposes is expected to be very limited, mainly in those cases where there are significant inflows into the Underlying Fund so that cash can be invested while the Underlying Fund's investments in equity and equity related securities are maintained. 	<p>the investment strategy of the sub-fund.</p>
Parties Involved	
WHO ARE YOU INVESTING WITH? <ul style="list-style-type: none"> • The Umbrella of the Underlying Fund is abrdn SICAV I. • The Management Company of the Underlying Fund is abrdn Investments Luxembourg S.A., the Investment Manager is abrdn Investments Limited and abrdn Hong Kong Limited. • The Sub-Investment Manager of the Underlying Fund is abrdn Asia Limited (Mainland Chinese assets only). • The Custodian of the Underlying Fund is Citibank Europe plc, Luxembourg Branch. 	<p>Refer to "Management and Administration" section on Page 13 of the Underlying Fund's Prospectus for further information on role and responsibilities of these entities.</p>
KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the ILP sub-fund may rise or fall. The following key risk factors may cause you to lose some or all of your investment:	<p>Please refer to Page 25 of the Underlying Fund's Prospectus for further information on risks of the sub-fund.</p>
Market and Credit Risks	

<p>You may be exposed to Markets Risk. Prices of the securities owned by the Underlying Fund may rise or fall in response to changes in economic conditions, political conditions, interest rates, and market sentiment. These may cause the price of units of the Underlying Fund to go up or down.</p>	
Liquidity Risks	
<p>The ILP sub-fund is not listed on the Singapore Exchange and you can redeem only on Business Days through Singapore Life Ltd. In respect of Singapore investors, there is no secondary market for the ILP sub-fund.</p>	
Product-Specific Risks	
<p>You are exposed to Equity Risk. The value of the Underlying Fund that invests in equity and equity-related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.</p> <p>You are exposed to Concentration Risk. Exposure to a single country market increases potential volatility.</p> <p>You are exposed to Emerging Markets (including China) Risk.</p> <ul style="list-style-type: none"> The Underlying Fund may invest in Mainland China - potential investors should note the "Investing in Mainland China" section of the "General Risk Factors" and the "Taxation of Chinese Equity and Bonds" section under "Taxation" in the underlying funds' prospectus. The Underlying fund invests in Chinese equities and equity-related securities thereby providing exposure to Emerging Markets which tend to be more volatile than mature markets and its value could move sharply up or down. In some circumstances, the underlying investments may become less liquid which may constrain the Investment Manager's ability to realise some or all of the portfolio. The registration and settlement arrangements in Emerging Markets may be less developed than in more mature markets so the operational risks of investing are higher. Political risks and adverse economic circumstances are more likely to arise. The Underlying Fund may invest in companies with VIE structures in order to gain exposure to industries with foreign ownership restrictions. There is a risk that investments in these structures may be adversely affected by changes in the applicable legal and regulatory framework. The Underlying Fund may utilise financial derivative instruments for investment purposes in pursuing its investment objective (in addition to use for hedging purposes). Use of derivatives other than for hedging may result in leverage and may increase volatility in the Net Asset Value of the Underlying Fund. Applying ESG and sustainability criteria in the investment process may result in the exclusion of securities in which the Fund might otherwise invest. Such securities could be part of the benchmark against which the Underlying Fund is managed, or be within the universe of potential investments. This may have a positive or negative impact on performance and may mean that the Underlying Fund's performance profile differs to that of funds which are managed against the same benchmark or invest in a similar universe of potential investments but without applying ESG or sustainability criteria. Furthermore, the lack of common or harmonised definitions and labels regarding ESG and sustainability criteria may result in different approaches by managers when integrating ESG and sustainability criteria into investment decisions. This means that it may be difficult to compare funds with ostensibly similar objectives and that these funds will employ different security selection and exclusion criteria. Consequently, the performance profile of otherwise similar funds may deviate more substantially than might otherwise be expected. Additionally, in the absence of common or harmonised definitions and labels, a degree of subjectivity is required and this will mean that a fund may invest in a security that another manager or an investor would not.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

All ILP sub-funds will be priced based on the frequency of the fund manager's pricing. The fund prices are updated daily and are available at Singapore Life Ltd.'s website at www.singlife.com.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

- You can exit the ILP sub-fund by submitting a request for withdrawal or fund switching (i.e. switches) to Singapore Life Ltd.
- If your Policy is newly inceptioned, you may cancel the Policy by giving us written notice of cancellation provided that such notice of cancellation is received by Singapore Life Ltd. at its Registered Office within the free-look period, which is fourteen (14) days from the date on which you receive the Policy.
- Upon cancellation of the Policy, Singapore Life Ltd. will refund the premiums you paid (without interest) after deducting the expenses incurred in issuing the Policy. The refund will be made after we receive the original Policy for cancellation.
- If there has been a decline in the market value, we will deduct the amount necessary to reflect the change in market value. If there has been an increase in the market value following the date Singapore Life Ltd. accepts your request to cancel the Policy, we will not pay you for such increase or any gain.
- For subsequent withdrawal/surrender or fund switching, transaction requests will need to be received and accepted by Singapore Life Ltd.:
 - (a) before 12 noon (Singapore time) on a Business Day will be processed according to the Unit Prices of the relevant Funds and the exchange rates (if applicable) prevailing on the next appropriate Fund Valuation Date following the day Singapore Life Ltd. has accepted the request.
 - (b) after 12 noon (Singapore time) on a Business Day or on a non-business day will be considered as if received before 12 noon (Singapore time) on the following business day.
- The ILP sub-fund will have a single "dealing" price used for all switches and withdrawals/surrenders. There is no bid/offer spread.
- All ILP sub-funds will be priced based on the frequency of the fund manager's pricing policy. As Units are cancelled using a forward price, the unit price for all switching and withdrawal of units will not be available at the time of receiving your application. This cut-off time stated is correct as at the time of print. Singapore Life Ltd. reserves the right to change the cut-off time by giving you thirty (30) days' prior notice or any such shorter period of notice as Singapore Life Ltd. may agree with the relevant authorities.
- The Withdrawal Amount you will receive as part of a subsequent withdrawal is illustrated as follows:

For a partial withdrawal request of 1000 units of an investment-linked fund.

 - Assuming the unit price of the fund is S\$1.50:

The amount payable to the policyholder will be S\$1500, which is calculated as 1000 units x S\$1.50.

Refer to the Pricing of Units & Dealing Deadline, Fund Switching, Withdrawal/Surrender and Free Look sections of the Product Summary for further information.
