KEY FEATURES OF THE SUB-FUND

Refer to "Structure of the Sub-Funds" and "Investment Objective/Strategies/Policies and Focus of the Sub-Funds" sections in 7 and 9 of the Underlying Fund's Prospectus for further information on features of the sub-fund.

¹ For ILP sub-fund that feed 100% into an underlying CIS fund, some of the information provided below could be similar to the underlying CIS fund.

The definition of "Excluded Investment Product" can be found in Annex 1 to the Notice on Recommendations on Investment Products [Notice No. FAA-N16] at <https://www.mas.gov.sg/regulation/notices/notice-faa-n16>.

Investment Strategy	
<ul style="list-style-type: none"> The Underlying Fund will invest all or substantially all of its assets in the abrdn SICAV I – Indian Equity Fund. This sub-fund of the Underlying Fund invests at least 70% of its assets in equities and equity-related securities of companies listed, incorporated or domiciled in India or companies that derive a significant proportion of their revenues or profits from Indian operations or have a significant proportion of their assets there. The sub-fund of the Underlying Fund is actively managed. The sub-fund of the Underlying Fund aims to outperform the MSCI India Index (USD) benchmark before charges. The benchmark is also used as a reference point for portfolio construction and as a basis for setting risk constraints, but does not incorporate any sustainable criteria. In order to achieve its objective, the sub-fund of the Underlying Fund will take positions whose weightings diverge from the benchmark and may invest in securities which are not included in the benchmark. The investments of the sub-fund of the Underlying Fund may deviate significantly from the components of and their respective weightings in the benchmark. Due to the active nature of the management process, the sub-fund of the Underlying Fund's performance profile may deviate significantly from that of the benchmark. The sub-fund of the Underlying Fund promotes environmental or social characteristics but does not have a sustainable investment objective. Investment in all equity and equity-related securities will follow abrdn's "Indian Promoting ESG Equity Investment Approach". Through the application of this approach the Underlying Fund does not apply a minimum threshold in Sustainable Investments. However, the Underlying Fund targets an ESG rating that is equal to or better, and a meaningfully lower carbon intensity, than the benchmark. This approach utilises abrdn's equity investment process, which enables the Portfolio managers to qualitatively identify and avoid ESG laggards. In addition, abrdn applies a set of company exclusions which are related to the United Nations Global Compact, Controversial Weapons, Tobacco Manufacturing and Thermal Coal. The sub-fund of the Underlying Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks, subject to the conditions and within the limits laid down by applicable laws and regulations. The use of derivatives for hedging and/or investment purposes is expected to be very limited, mainly in those cases where there are significant inflows into the sub-fund of the Underlying Fund so that cash can be invested while the sub-fund of the Underlying Fund's investments in equity and equity related securities is maintained. 	<p>Refer to "Investment Objectives/Strategies/Policies and Focus of the Sub-Funds" and "Investment approach" in sections 9 and 11 of the Underlying Fund's Prospectus for further information on the investment strategy of the sub-fund.</p>
